CERAMIC DISC TH

HIGH END LINE OF ANTI-VIBRATION FOOTERS - MAIN INFORMATIONS

MORE THAN 15 YEARS OF EXPERIENCE IN DESIGNING AND BUILDING OF AUDIO RACKS AND ACCESSORIES HIDDEN INSIDE THIS PRODUCT

ENGINEERS KNOWLEDGE - TRADITION - THE HIGHEST QUALITY - CNC MACHINING - CRAFTSMANSHIP FINISHING - HIGH END PRODUCTS SUPPORTED BY REVIEWERS TESTS - EXPERIENCE ON HIGH-END MARKET SINCE 2009

CERAMIC DISC TH

High aesthetics and uncompromising performance - unattainable for other products in this price range .

The main idea behind the Ceramic Disc TH was to create a **universal, high-class product at the lowest possible price** , so that every music lover could afford it... and it worked!

Ceramic Disc TH means high aesthetics and uncompromising performance - **unattainable for other products in this price range** .

The Best for light and semi heavy audio components, speakers, turntables, stands, racks, platforms and audio furniture.

Excellent for replacing original footers mounted by producers in audio components, speakers etc.

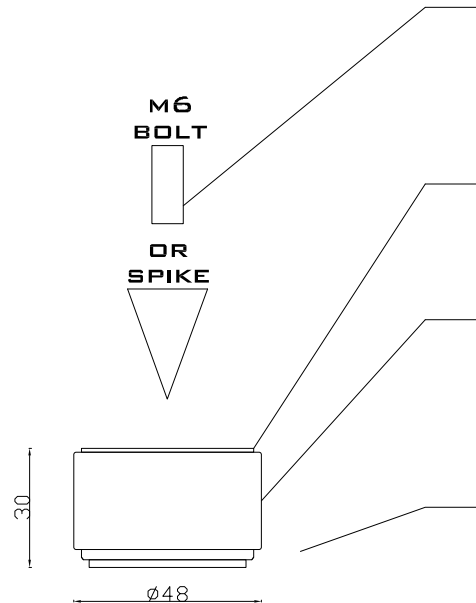

Precisely CNC machining technology, carefully selected high grade materials and super hard ceramic balls guarantee the most effective suppression of unwanted resonances and best listening experiences.

Using (as option) additional M6 screws **allow the installation of the Ceramic Disc TH in many ways** and directly to the audio components. If your audio component/stand/speaker has its own spikes, you can also install them on the footers **without disconnecting the original spikes** - simply insert the component with spikes into the black holes in the center of the disks.

High aesthetics and **uncompromising performance - unattainable for other products in this price range** , have been also noticed and appreciated by world-class high-end manufacturers and Ceramic Disc TH has been **used in the high-class equipment** and devices they produce. (Engstrom, AudioNec)

Dimensions

- Outside diameter 48[mm]
- Height 30[mm]
- Thread M6
- Maximum load 0-90[kg] (set of 3 pieces), 0-120[kg] (set of 4 pieces)

BOLT OR SPIKE

- sandwich construction of precisely CNC machined high grade aluminum and silicone on the top perfectly quenched unvanted resonances
- keep your audio gear in exactly the same right position at any time
- avoid of any moving or sliding of audio gear on footers
- protect your precious audio gear against any scratches and damages

CERAMIC BEARING

- sandwich construction of precisely cnc machined high grade aluminum bearing housing and silicone on the top perfectly quenched unvanted resonances
- three ceramic balls guarantee the best vibration controll and reduction of unvanted resonances

HOUSING

- precisely CNC machined high grade anodised aluminum housing of ceramic bearing
- keep ceramic bearing in right and perfect center position guaranteed perfect and the same load and press at all of ceramic balls inside bearing
- another level of dumping of resonances by soft mounition between housing and bottom plate of the footer

BOTTOM PAD

- keep always your footers in right place and position
- anti-dumping layer at the bottom perfectly isolate from resonances of a floor or other surface which the footers are put on
- prevent against moving
- protect your floor or furniture against scratching or damages keeping it always in perfect condition

CERAMIC DISC TH
 SET OF 3 (0-90 KG)
 SET OF 4 (0-120 KG)

- ONE SET OF CERAMIC DISC TH INCLUDES 3 OR 4 FOOTERS
- EACH SET OF DISCS HAS THEIR OWN UNIQUE SERIAL NUMBER AND CERTIFICATE OF AUTHENTICITY SIGNED BY FOUNDER
- FINISHING - BLACK OR SILVER SEMI GLOSS ANODISING (OTHER COLOURS ON REQUEST)
- PACKAGING - EXCLUSIVE BOX WITH FOAM PROTECTION
